Thirty Dollars Reward.

RANAWAY from the subscriber on the 29th of October last, a negro man slave named

BOB,

about 20 years of age, five feet nine inches high straight limbed and well formed; said slave hath an impediment in his speech which prevents his readily replying to a question. He commonly wears ear-rings. He took with him a variety of good cloathing, a description of which is unnecessary, as it is probable he has changed them. He has been frequently seen about town since he absconded, and in all probability is now secreted by his mother, Winney Brown, formerly the slave of Mr. JOHN MUIR, late of this town, but now said to be free. The above reward will be paid for securing said Negro BOB, in any goal, and a further reward of TEN DOLLARS for the discovery of those who have been accessary to his concealment.

Captain's of vessels, &c. are forwarned at their peril, not to take him away.

ELEGANT EDITION

OF

The HOLY BIBLE.

PROPOSALS

For Printing by Subscription, (in four handsome octavo volumes)

THE HOLY BIBLE,

CONTAINING

The Old and New Testaments.

CONDITIONS.

It shall be printed on a superfine wove paper, with an elegant new type.

The price to subscribers will be *Two Dollars* per vol. in boards, or *Two Dollars* and *Fifty Cents*, handsomely bound and lettered.

To those who subscribe for several copies, a discount will be made, proportioned to the number subscribed for.

THE advantage of having this invaluable Book printed on a large type, and, at the same time, in portable and convenient volumes, appears so evident, that the encouragement necessary to warrant an undertaking of such magnitude, is confidently expected; a portable volume would often be taken up, in a moment of leisure, when the size of a large, unwieldy folio, would operate as an apology for leaving it unopened, in this way, small portions of time would be profitably employed, which might otherwise be totally lost. In large families a Bible in volumes, affording an opportunity for several to read at once, may sometimes be peculiarly convenient: it seems superfluous to add much on this subject—suffice it to say, that no reasonable expence or pains shall be spared, to render this edition of the Holy Scriptures both correct and elegant.

The above work is in press, and will be finished about the end of the present year.

☞ Subscriptions received by R. and J. Gray, King street, where a specimen of the paper and printing may be seen.

AN ACCOUNT OF LOUISIANA,

Being an abstract of documents in the Offices of the Departments of State and of the Treasury.

[CONCLUDED.]

Taxes and Duties,

Instead of paying local taxes, each inhabitant is bound to make and repair roads, bridges and embankments through his own land.

A duty of six per cent, is payable at the custom house, on the transfer of shipping. It is ascertained upon the sum, the buyer and seller declare to be the real consideration. As no oath is required from either, they seldom report more than half the price.

The following taxes are also payable in the province.

Two per cent. on legacies and inheritances, coming from colaterals, and exceeding 2,000 dollars.

Four per cent. on legacies and inheritances given to persons who are not relatives of the testator.

A tax on civil employments, the salaries of which exceed 300 dollars annually, called *media annata*, amounting to half of the first year's salary. By certain officers, it is to be paid in two annual instalments, and by others in four. The first person appointed to a newly created office pays nothing, but the tax is levied on all who succeed him.

Seven dollars is deducted from the sum of 20 paid as pilotage by every vessel entering or leaving the Mississippi; but the treasury provides the boats, and pays the salary of the pilots and sailors employed at the Balize. The remainder of the 20 dollars is thus distributed. To the head pilot 4—to the pilot who is in the vessel 4, and 5 to the crew of the row boat, that goes out to put the pilot on board, or take him ashore.

A tax of 40 dollars per annum for licences to sell liquors.

A tax on certain places when sold, such as those of Regidor, Notary, Attorney, &c.

But the principal tax is that of six per cent, levied on all imports and exports according to a low tariff. The proceeds of which nett about 120,000 dollars, whilst all the other taxes are said not to yield more than 5 or 6000 dollars annually.

Expences and debt.

The expences of the goverement, comprehending the pay and support of the regiment of Louisiana, part of a batallion of the regiment of Mexico, a company of dragoons, and one of artillery, which form the garrison of the country, including Mobille; the repairs of public buildings and fortifications; the maintenance of a few gallies to convey troops and stores throughout the province, Indian presents and salaries of officers, clergy, and persons employed for public purposes, amount to about 650,000 dollars. A sum in specie, which does not generally exceed 400,000 dollars is annually sent from Vera Cruz; but this, together with the amount of duties and taxes collected in the province, leaves usually a deficiency of one hundred or one hundred and fifty thousand dollars, for which certificates are issued to the persons who may have furnished supplies, or to officers and workmen for their salaries.—Hence a debt is accumulated, which, it is said, amounts at present to about 450,000 dollars. It bears no interest, and is now depreciated 30 per cent. The latter circumstance has taken place, not from want of confidence in the eventual payment of the certificates; but from the uncertainty of the time when, and the want and general value of specie. The whole of this debt is said to be due to the inhabitants, and to American residents. It would have been long since paid off, but for a diversion of the funds, destined for that purpose, to dificrent and external objects.

Imports & Exports.

The productions of Louisiana are,—sugar, cotton, indigo, rice, furs and peltry; lumber, tar, pitch, lead, flour, horses and cattle. Population alone is wanting to multiply them to an astonishing degree.—The soil is fertile, the climate salubrious, and the means of communication between most parts of the province certain and by water.

The following has been received as a sketch of the present exports of Louisiana, viz.

	Dollars.	
20,000 bales cotton 3 cwt. each at 20 cents per lb.	1344,000	increasing.
45,000 casks sugar 10 cwt. each, at 6 cents per lb.	302,400	ditto.
800 do. molasses 100 gallons each.	32,000	ditto.
Indigo, - -	100,000	diminising rapidly.
Peltry, - -	200,000	
Lumber, - -	80,000	
Lead, corn, horses, cattle, uncertain.	—	
All other articles suppose,	100,000	
	2,158,000	

According to official returns in the treasury of the United States, there were imported into our territory from Louisiana and the Floridas, merchandize to the following amounts, in the several years prefixed:

	Dollars.
In 1799 to the value of	507,132
1800 - - - -	904,322
1801 - - - -	956,635
1802 - - - -	1,006,214

According to the same authority, which makes the total of the exports to amount to 2,158,000 dollars in the ports, in merchandize, plantation utensils, slaves, &c. amount to two and an half millions, the difference being made up by the money introduced by the government, to pay the expences of governing and protecting the colony.

According to the returns in the treasury of the United States, exports have been made to Louisiana and the Floridas, to the following amount in the years prefixed:

In 1799 to the value of
3,056,268 in foreign articles.
447,824 in domestic do.

Dollars 3,504,092

In 1800 { 1,795,127 in foreign articles. 240,662 in domestic do.

Dollars 2,035,789

In 1801 { 1,770,794 in foregn articles. 137,204 in domestic do.

Dollars 1,907,998

In 1802 { 1,054,600 in foreign articles. 170,110 in domestic do.

Dollars 1,224,710

It is to be observed that if the total of the imports and exports into and from those provinces (of which the two Floridas are but a very unimportant part, with respect to both,) be as above supposed, viz

Imports,	2,500,000 dollars
Exports,	2,158,000
Making together,	4,658,000

The duty of six per cent. ought alone to produce the gross sum of two hundred seventy-nine thousand four hundred and eighty dollars, and that the difference between that sum and its actual nett produce, arises partly from the imperfect tariff by which the value of merchandize is ascertained, but principally from the smuggling, which is openly countenanced by most of the revenue officers.

Manufactures.

There are but few domestic manufactures. The Acadians manufacture a little cotton into quilts and cottonades; and in the remote parts of the province the poorer planters spin and weave some negro cloths of cotton and wool mixed. There is one machine for spinning cotton in the parish of Iberville, and another in the Opelousas; but they do little or nothing. In the city, besides the trades which are absolutely necessary, there is a considerable manufacture of cordage, and some small ones of shot and hair-powder. There are likewise in, and within a few leagues of the town, twelve distilleries for making taffia, which are said to distil annually a very considerable quantity; and one sugar refinery, said to make about 200,000 pounds of loaf sugar.

Navigation Employed in the Trade of the Province.

In the year 1802, there entered the Mississippi two hundred and sixty-eight vessels of all descriptions, eighteen of which were public armed vessels, and the remainder merchantmen, as follows, viz.

	American.	*Spanish.*	*French.*
Ships,	48	14

Of the number of American vessels, twenty three ships, twenty five brigs, nineteen schooners, and five sloops came in ballast, the remainder were wholly or in part laden.

Five Spanish ships and seven schooners came in ballast. The united tonnage of all the shipping that entered the river, exclusive of the public armed vessels, was 33,725 register tons.

In the same year there sailed from the Mississippi two hundred and sixty five sail, viz.

The tonnage of vessels [illegible] way in ballast, and that of the public armed ships, are not included in the foregoing account—these latter carried away masts, yards, spars pitch, tar, &c. at least a thousand tons.

In the first six months of the present year, there entered the Mississippi 17 sail, of all nations four of which were public armed vessels viz. two French and two Spanish, whose tonnage is not enumerated.

Coasting Trade.

There is a considerable coasting trade from Pensacola, Mobille, and the Creeks and Rivers falling into, and in the neighbourhood of Lake Ponchartrain, from whence New Orleans is supplied with ship timber, charcoal, lime, pitch, and tar, and partly with cattle, and the places before named are supplied with articles of foreign growth and produce in the same way from New Orleans. The vessels employed are sloops and schooners, some of which are half decked, from eight to fifty tons; five hundred of which, including their repeated voyages, and 13 gallies and gun boats entered the Bayou St. Jean last year. There is likewise a small coasting trade between the Atacabas and Opelousas, and New Orleans, by way of the Balize, which would much increase, if there was any encouragement given by government, to clear away a few obstructions, chiefly caused by fallen timber, in the small rivers and creeks leading to them.

THE PLOUGHMAN.

From the Balance.

MESSRS EDITORS,

Political preceptors, otherwise called demagogues, like every other evil, may, if properly employed, be made to yeild some advantage. The person who intends to receive any benefit from them, should pay the strictest attention to their precepts. He should remember minutely all the doctrines and opinions advanced by them at one time, and carefully compare them with those contended for at another. The politician whose principles and sentiments, at all times, and under all circumstances, are ever found perfectly consistent—whose opinions do not vary with every change of administration—who will not applaud when in the majority, what he had condemned while belonging to the minority, who, in short, is the advocate of *principles*, not of *men;* and who has but one language, and that the language of his heart—*is honest.* He is entitled to the respect, the esteem, and the support of the independent yeomanry. But the supple, trimming, accommodating, sycophantic demagogue, who changes his character, his conduct and his language, as often as a stage player—who sticks to his *man*, even though his man should neglect to stick to principle—*is dishonest!* and ought to be despised and avoided. It behoves every man, therefore, who is in pursuit of truth and information, to attend particularly to every syllable that falls from the lips of political preceptors. Let him observe whether they always speak one language, whether they always talk alike, and tell one straight story; whether they adhere to one uniform set of principles; whether their opinions of any particular measures are the same under one administration, as under another; or whether, on the contrary, something like *office-seeking* has not induced them uniformly to condemn one set of men and uniformly to applaud another set of men, without regarding their conduct.

If a man tells us, during one administration, that a law which prevents *malicious lying* is unconstitutional and tyrannical; and, during another, that a law which prevents the *telling of truth* is just and salutary; let us avoid and despise him.

If a man tells us, at one time, that none

SATURDAY, NOVEMBER 26.

In the House of Representatives in Congress, two celebrated characters were at different times put in nomination as candidates for separate public offices, and each of them had but one vote. Beau Dawson had a single vote for SPEAKER, and Tom Paine another for CHAPLAIN, to the House of Representatives!!!

The Spaniards who have been renowned for the sagacity of their proverbs, say "the devil tempts every one, but an idle person tempts the devil himself."

It would almost seem that this proverb, though published above a century ago, had reference to the present business of Louisiana. We find Bonaparte tempted to cheat the Spaniards out of their province, and to contemplate the dominion of America, through that entrance under the specious pretence of colonization. We see the King of England tempted to stop his preparations, to make him re-embark his troops, and to dismantle his ships. We find America tempted to purchase this same contested desert, and in danger of fighting for it into the bargain. We see Spain protesting against the sale, in short, we see France, Spain, and America, at loggerheads about Louisiana. Thus is the old Spanish proverb verified upon themselves—for the devil has tempted France, England, and America, whilst the poor Don seems only, by his pusillanimity, to tempt the devil himself!

MR. SNOWDEN,

IN your paper of yesterday, some person fond of erroneous calculation, haa given us to understand the immense saving in distance, the Turnpike road will have if taken by the court house; but his calculation is made on the supposed difference of three miles, while the Directors themselves say it lacks thirteen poles of two miles. If interest is not in the way, why thus mislead the people as to matters of fact? Mr. Sommers's survey I have not seen, but by the survey returned by the Loudon surveyor, the difference of distance between the strait line and the Centerville route is only one mile and one hundred and seventy nine poles, and by the same survey the strait line, leaves the court house one mile and one hundred and eighty poles on one side, how then is the strait line by the court house? those surveys were made at the expence of the Stockholders, and they are privileged to ask a sight of them, and it is hoped they will do so. Directors are also nominated, but every one knows that Mr. Swann has scarce time to speak to his clients, much less to make Turnpike roads. Wm. Payne I know nothing of, but conclude that the intention of adding those two is to give up the whole direction to the old memorable three.

The brig Essex, Webster is arrived at Newburyport in a very short passage from Lisbon. The information obtained is but trifling, owing to the short space of time capt. Webster was in Portugal—He briefly states that the French have required of the Portuguese government, that they shut their ports against the English, or pay 5,000,000 of money annually. Capt. W. contradicts the report brought by captain Brown of N. York, that the English had fallen in with a French fleet, &c. Captain Webster saw a letter at Lisbon, from an American at Tangiers, to Mr. Jarvis, consul at Lisbon, stating that the Moors had captured three Americans vessels, and that one, capt. Williams of Boston, was detained at Mogadore.

Political "Oppungnancy."

In the National Intelligencer, the President's paper, under a "Defence of Republican Governments," "Letter the Sixth," is the following paragraph:

"It is the policy and practice of Monarchies and Aristocracies to *conceal* the *initiation* of the public acts and in most cases the *grounds* on which they are taken. On the contrary, it is the policy and practice of Republican Governments to *expose* their *proceedings*, in *all their stages*, and only in a few instances and for a short time to conceal the reasons for them.

This "Defence" is supposed to have been written by the President, who must undoubtedly recollect his tools, in the first session of Congress under his administration, by their "dignified silence," *concealed* the *grounds* of their public acts; and in the last session by closed doors, they not only *concealed* the *initiation and grounds* of their public acts, but the acts *themselves*. Now what must be the opinion of his Excellency, (and those who publish his "Defence") of our present government?—Do they think it a monarchy or an arristocracy?—They surely will not call it a Republic. *Boston Gaz.*

IMPORTANT!

Chillicothe, Nov. 12.

The following letter from the Department of War at the City of Washington, to his Excellency the Governor of this State, was received by last night's mail.

WAR DEPARTMENT,
Oct. 31, 1803.

SIR,

THERE being reason to suspect that the officers of the Spanish government at New Orleans may decline or refuse to give possession of the country of Louisianna, ceded to the United States by the French Republic, and which Congress have by law authorised the President of the United States to take possession of, and the President having judged it expedient to pursue such measures as will insure the possession, I have therefore been directed by the President of the United States to request your Excellency to assemble with the least possible delay Five Hundred of the militia of the state of Ohio, including a suitable number of officers, and cause the same to be formed into a regiment of eight companies to be engaged to serve four months, unless sooner discharged, to be mustered in companies and ready to march, if called by the 20th December at furtherest; after having been so mustered in companies by suitable persons appointed by your Excellency, the men may return to their homes, but must hold themselves in readiness to join their companies and march at the shortest notice.—Each officer and soldier will be entitled to pay from the day they shall receive orders and march to join their respective regiments, until discharged. They will be entitled to the same pay as regular troops in the service of the United States.

I have the honor to be,
Respectfully,
Your humble servant,
H. DEARBORN.

To his Excellency *Edward Tiffin*, Governor of the State of Ohio.

We understand that the provisional army is to be composed of 500 mounted volunteers from the Mississippi Territory, to join the regular troops in that Territory, and to proceed immediately to New Orleans, to take possession of Louisiana; in the mean time the State of Tennessee is to hold in readiness to march at a moment's warning.

CONGRESS
OF THE
UNITED STATES.

HOUSE OF REPRESENTATIVES.

WEDNESDAY, November 23.

The House again resolved itself into a committee of the whole,—Mr. Dawson in the chair—on the resolution offered by Mr. Newton for *repealing the* BANKRUPT LAW.

The debate was resumed by Messrs. Elliot, Hastings, Sanford and Randolph in favor of, and by Messrs. Skinner and Eustis against the repeal of the Bankrupt Law.

About four o'clock, the debate being closed, the question on the resolution to repeal, was taken and carried in the affirmative—Ayes 94.

The committee rose and the house took up their report, on agreeing to which the yeas and nays were required, and were Yeas 99—Nays 13.

THURSDAY, November 3.

A committee was appointed to enquire into the expediency of amending the acts of Congress for the sale of lands.

On the motion of Mr. Claiborne, the house resolved itself into a committee of the whole—Mr. Varnum in the chair—on the report of the committee of claims on the petition of AMEY DARDEN. The report is unfavorable to the prayer of the petitioner.

On agreeing to this report, a discussion took place, which occupied the whole of the day.

Messrs. I C. Smith, Gregg, and Macon supported, and Messrs. Claiborne, Smilie, and Elliott opposed the report when the question was taken on agreeing to the report of the committe of claims, and lost—Ayes 33.

Mr. Claiborne then moved a resolution—"that the prayer of Amey Darden is reasonable and ought to be granted."

Messrs. Claiborne and Nicholson supported, and Messrs. Griswold and Gregg opposed this resolution, which on the question being taken was carried—Ayes 61—Noes 58.

The committee then rose, and reported their agreement to the resolution.

Mr. Gregg moved an amendment directing the proper accounting officer of the treasury to settle the claim of Amey Darden on the same principles with similar cases, the statute of limitations notwithstanding.

Messrs Griswold and Gregg supported, and Messrs Nicholson and claiborne opposed this amendment.

Lost—Ayes 47—Noes 61.

A concurrence in the report was then agreed to and the committee of claims instructed to bring in a bill.

Mr. Newton, from the committee appointed yesterday, reported a bill to repeal an act entitled "an act to establish an uniform system of bankruptcy throughout the United States."

Read twice and refered to a committee of the whole to-morrow.

PUBLIC SALE.
SOME of the Legatees of the late Mr. William Triplett, having objected to a division of the decedant's estate, which he recommended in his will to be done, we, therefore, as executors, will expose to public sale, at Round Hill, his late residence, on Wednesday the 14th of December next, ALL THE ESTATE, real and personal, of which the died siezed.

The ROUND HILL Tract, containing nearly four hundred acres, is a most desirable and healthy situation, on which is built a brick house one story high, fifty four feet long, and eighteen feet wide; four rooms on the lower floor, with a fire place and closets in each, and a passage eight feet wide; three rooms upstairs, two of them with fire places, a good cellar and kitchen under the house: a framed barn, dairy, stables for ten horses, carriage house, two corn houses, one granary, meat house, and quarters, well calculated for the accommodation of thirty negroes; an apple orchard of excellent fruit, and a garden paled in. This farm is well known to be one of most productive in the county, and now in a high and improved state, being well fenced and divided into convenient fields for farming; there are eighty acres of timothy meadow, producing from eighty to one hundred tons a year; fifty acres of new meadow may be made and watered at a small expence. The crops of small grain have generally been from 500 to 600 bushels, and of corn 300 barrels.

Near this lies another Tract of about four hundred acres, heavily timbered with pine, oak and hickory, with good springs and fine high, healthy situations for building; the post road, from north to south, passes thro' those two tracts, which affords two excellent stands for taverns, and also for tan yards, being not more than eight miles from Alexandria and sixteen from Washington.

Also, another Tract lying on the main branch of Tillot's creek, about two miles from Colchester, on which Mr. William Triplett now lives, containing upwards of 100 acres; the building is a good farm house, in a healthy situation, a good orchard and fine water.

At the same time and place will be sold, thirty valuable SLAVES, men, women and children; some plate, a watch, books, (among which are some valuable classics) household furniture, and beds of a good quality, bed and table linen, kitchen furniture, a coachee and harness, one waggon and cart, farming utensils, horses, mule, one yoke of excellent oxen, cattle, sheep, ogs, &c.

The terms of sale for the land are, one third payable on the day of sale, (at which time deeds will be made the purchaser) one third in six months, and the other third in 12 months, with interest from the day of sale. A deed of trust will be taken to secure the two last payments. The Negroes will be sold at 12 months credit, and the other property at a credit of nine months: for all sums over twenty dollars bonds, with approved security will be required of the purchasers.

Major George Triplett, on the premises, will shew the land, with a correct plat survey lately made by Col. Wm. Payne, County Surveyor, at the instance of the executors. The title papers will be exhibited on the day of sale by
CHALES LITTLE, AND GEORGE TRIPLETT, } *Executors.*
